

## Your Business in Good Hands with Honeywell Home Tuxedo Touch™

Access enriched security features that maximize energy and cost savings.

# Your Connected Business

The Honeywell Home Tuxedo Touch functions as an advanced business security and automation controller, video camera or recorder, and more.

Welcome to your connected business.

You can enjoy easy, fingertip control of Z-Wave® enabled thermostats, lighting and locks—even view and record video—with the smart, 7" full-color touchscreen. Through Resideo Total Connect Remote Service, you can even control your system on smartphones, tablets and other compatible devices.

# Talk about Convenience

You'll know how to use the Tuxedo Touch controller the first time you see it. It's intuitive, easy to learn and easy to use whether you're controlling security or automation, viewing and recording video or performing other functions on the touchscreen.

## Security Made Simple

Reduce employee training time with an intuitive, easy-to-use screen. Simply assign or cancel employee user codes and access the event log to track employee system usage — including openings and closings.

Plus, you can get the best out of voice annunciation of alarm conditions\* and use the screen as a digital picture frame with your business logo and more.

## On-Premises Video Viewing and Recording

Use the high-resolution 7" touchscreen or other compatible devices to view up to four indoor or outdoor IP cameras around your building.

Plus, you can record up to two-minute videos on an SD card, getting visual verification of an alarm or system activity — significantly enhancing the security of your business.

\*Voice annunciation option available in English language only.

# Enhanced Server Options for a Smart Business

## On-Premises Control

The built-in web-server empowers you to locally control Tuxedo Touch anywhere in your facility on smartphones, smart TVs, tablets or any web-enabled device using your business' Wi-Fi network.\*

## Audio/Music

Integrated audio/music control of streaming services such as Pandora, SiriusXM®, Amazon, and more via Denon® HEOS Wi-Fi systems.

# Energy Management and Savings

Through Scenes and Schedules

## Thermostats\*

Z-Wave enabled thermostats automatically adjust on every system arm and disarm action and save you money, and energy\*\*—through precise control for improved workplace comfort and less temperature swings. Plus, you can limit lockout temperature and keep track of unauthorized attempts to adjust the thermostats.

## Locks

With Tuxedo Touch you can lock and unlock doors wherever you are on the premises, or automatically, when arming or disarming your security system—all through the keypad on your door lock.

## Lighting

Arm your security system and turn indoor and outdoor lights on or off, using automated Z-Wave lighting. Program your lights for an occupied appearance when you're away, controlling costs and energy usage for every schedule.

## Shades

Avoid wasteful heating of the premises and eliminate extra expenses. Enhance workplace comfort and facility privacy, and overall security with Z-Wave enabled shades—programmed to raise or lower at specified times.

## Flood Detection

Flood detection and water shut-off valve to alleviate costly flood damage.

\*Temperature available in Fahrenheit and Celsius.

\*\*When used with the Honeywell Home ZWSTAT Thermostat.

## Set the Scene

### Scene Scheduling

Tuxedo Touch makes it easy to set scenes that occur on a regular basis through Z-Wave technology—helping you save money and conserve energy. You can control the temperature so you don't waste money heating or cooling your building when you don't need to.

### Sunrise/Sunset

Not only can you set scenes to occur at specified times, but you can even have them respond to the sun. Your outdoor lights can turn on at sunset and off at sunrise, for example. Sunrise/sunset times update automatically and adjust for daylight savings.

### Event-Driven Scene Activation

For event-driven scene settings, Tuxedo Touch can easily connect to Honeywell Home VISTA®—the most reliable security control in the industry. For example, if movement is sensed in a dark hallway, the motion sensor can trip a Z-Wave light to come on automatically to light the way for an employee who is working late. This increases employee safety while alerting you about activity at your facility.

# Total Connect Remote Services

Wherever you are, you can control your system and receive important alerts with Total Connect on any mobile device.

## Control and Manage Your System

### No Matter Where You Are

With Total Connect, you can:

- Control your Z-Wave enabled lighting, locks, thermostats and shades
- Receive notifications of events in and around your business via email, text messages or video alerts (e.g., a flood or delivery arrival)
- Be alerted to floods, leaks and extreme temperature changes
- Know if merchandise, equipment, electronics or other valuables have been moved or disturbed
- View up to 100 sites with one login—great for franchise owners and businesses with multiple sites

## Remote Video Viewing

Stay informed with the option to view live video of the premises anytime, anywhere.

- Keep an eye on your employees
- Look in on your stockrooms, loading docks, cash registers, entrances, exits and other vulnerable areas
- View up to four cameras at a time\*\*
- Monitor your business in low-light or dark environments with indoor low-light cameras\*\*
- Video camera surveillance and recording available via keypad interface or through your personal smart device

## Unlock Your Business Potential

When you are not available to be there yourself, unlock doors for employees remotely using Z-Wave enabled locks.

\*\*Total Connect cameras required.

# A Crystal Clear View of Your Business

The stunning high-resolution touchscreen supports over 16 million colors. You can showcase products in vivid detail, advertise sales and special promotions and post employee announcements, floorplans and more.

## Sleek, Stylish Design

The extra large screen and choice of white or silver housings are ideal in any commercial or industrial setting.

## Picture the Possibilities

The security and business controller, digital picture frame, video viewer and recorder, and intuitive touchscreen are an unbeatable combination.
